

1. Traversing
2. Copying
3. Reverse without using another array.
4. Check if array is palindrome
5. Sorting (Bubble, Selection, Insertion, Merge)
6. Searching (Linear, Binary)
7. Matrix Operations on 2D and Jagged (Addition, Multiplication, Transpose)
8. Find out the sum of all even indexed elements from a given int array?
9. Find out the sum of all odd indexed elements from a given int array?
10. Find out the min value from all even indexed elements from a given int array?
11. Find out the max value from all odd indexed elements from a given int array?
12. Find out the max value from a first half of given int array?
13. Find out the max value from a second half of given int array?
14. Find out the average value from a first half of given int array?
15. Read all elements from an array in the reverse order?
16. Read first half of the elements in the reverse direction from an array?
17. Read second half of the elements in the reverse direction from an array?
18. Find out an index of a specified element from a given array?
19. Swap two given indexed elements from the array?
20. Reverse the elements of given array?
21. Reverse only even indexed of the elements of given array?
22. Reverse only odd indexed of the elements of given array?
23. Swap odd indexed elements with its immediate next even indexed elements of given array?
24. Do right shift by one for elements of given array?
25. Rotate array
26. Majority element
27. Replace every element with sum of its digits

LeetCode:

1. Move Zeroes (LeetCode 283)
2. Rotate Array (LeetCode 189)
3. Remove Duplicates from Sorted Array (LeetCode 26)
4. Find Missing Number (LeetCode 268)
5. Minimum Size Subarray Sum (LeetCode 209)
6. Maximum Average Subarray I (LeetCode 643)
7. Max Consecutive Ones (LeetCode 485)
8. Subarray Sum Equals K (LeetCode 560)
9. Top K Frequent Elements (LeetCode 347)

10. Majority Element (LeetCode 169)
11. Intersection of Two Arrays (LeetCode 349)
12. Two Sum II - Input Array Is Sorted (LeetCode 167)
13. 3Sum (LeetCode 15)
14. Container With Most Water (LeetCode 11)
15. Subarray Sum Equals K (LeetCode 560)
16. Find Pivot Index (LeetCode 724)
17. Maximum Subarray (LeetCode 53)
18. Search in Rotated Sorted Array (LeetCode 33)
19. Find First and Last Position of Element in Sorted Array (LeetCode 34)
